

Wisconsin Farm-raised Fish are ENVIRONMENTALLY FRIENDLY

Aquaculture, or fish farming, is the raising of aquatic organisms in controlled environments. Wisconsin fish farmers use water responsibly to produce the highest quality fish.

Over 150 Wisconsin fish farms raise fish for food, pond and lake stocking, and bait for recreational fishing. Fish farms have been a part of Wisconsin agriculture since 1856!

Based on scientific studies done, there are no suggested restrictions on the consumption of Wisconsin, farm-raised fish for men, women or children.

Wisconsin Farm-raised Fish for BAIT

- Wisconsin fish farm environmental and fish health regulations are among the most stringent in the country. This ensures the safest and healthiest products.
- Farm-raised baitfish reduces our dependency on natural minnow populations and prevents over harvesting.

Wisconsin farm-raised baitfish are raised according to industry best management practices:

- Clean water
- Responsible use of natural resources
- Veterinarian-certified fish health program
- Free of aquatic invasive species

Wisconsin Farm-raised Fish for STOCKING

- Gamefish raised by Wisconsin Fish Farmers can be used to stock lakes or private ponds. Fish grown in Wisconsin include: trout, yellow perch, bluegill, walleye, northern pike, musky, bass, and minnows.
- Stocking your pond or lake with Wisconsin farm-raised fish means a reduction in the number of miles your fish have to travel. This means less stress on the fish and a healthier product!
- Stocking Wisconsin farm-raised fish in your pond or lake is safe because fish have to be certified free of disease before they are stocked.

Wisconsin Farm-raised Fish for FEE FISHING

Many fish farms offer on-site fee fishing. Make great family memories visiting a fish farm together!

- Visiting your local fish farm and buying Wisconsin farm-raised fish supports your local economy.
- No need to bring your own equipment; it's all provided at the farms!
- Catching your own fish at a fish farm reduces the number of miles your food has to travel and insures you get the freshest fish possible!
- Buying locally-grown fish decreases our dependence on seafood coming in from overseas.
